

Overall Performance

Summary

Traffic & Reach: Total users reached 4,740, with 7,393 sessions in May '26, reflecting strong month-on-month growth of 37.4% in users and 47.5% in sessions, indicating a significant increase in overall website visibility and traffic.

Engagement Quality: Engagement rate stood at 60%, remaining relatively stable despite the substantial increase in traffic, suggesting that the website maintained user engagement while attracting a larger audience.

Conversions: User actions continued to improve, with 28 email clicks, 28 phone call clicks, and 8 booking form submissions recorded during the month. Phone call clicks increased by 33.3%, while total revenue attributed to B2C conversions reached 243,888 kr, indicating stronger commercial performance alongside traffic growth.

Organic Performance

Summary

Traffic & Reach: Organic traffic recorded 2,222 total users and 3,486 sessions in May '26, reflecting substantial growth in organic acquisition.

Search Visibility: Search visibility strengthened significantly, with 67,617 impressions and 3,787 clicks, representing increases of 28.6% and 44.9% respectively. Site CTR improved to 5.6%, while average position improved to 8, indicating stronger rankings and greater visibility across SERPs.

Conversions: Organic engagement remained strong, generating 19 phone call clicks, 18 email clicks, and 4 form submissions. Phone call interactions increased by 280% and email clicks by 200%, highlighting stronger high-intent engagement and improved lead generation from organic traffic.

Core Performance Overview - Google Ads

Summary

- May's budget drop (-49.7%) is directly attributable to the scaling down the campaigns as per business decisions

- Cost Per Lead actually improved from 402.48 kr to 218.65 kr (-46%), B2C Purchases improved by 25% as compared to April. Booked Appointments improved by 200% as compared to April. While Form submissions have remained consistent.

- [pMax] PreikestolenBaseCamp is the best performing campaigns, garnering a total of 11 of which included 3 form submissions and B2C Purchases each, while [SEARCH] Brandname, is the second best garnering 9 leads. [SEARCH] B2B remains under review due to minimal returns. A new Winter strategy is currently being developed to recover volume while maintaining the efficiency gains achieved in May.

Summary

Overall Website Performance

- In May, the website recorded 7,393 sessions, reflecting strong month-on-month growth compared to April as overall demand and website visibility continued to increase.
- Total users reached 4,740, while 4,450 new users were acquired, indicating expanded audience reach and improved user acquisition.
- A total of 64 conversion actions were recorded in May '26, including 28 email clicks, 28 phone call clicks, and 8 form submissions.
- Traffic composition remained consistent, led by Organic Search (~52.2%), followed by Direct (~38.1%), with Paid Search (~4.5%), Cross-network (~3.7%), and other channels contributing smaller shares.
- Mobile accounted for 4,480 sessions, significantly higher than desktop with 2,715 sessions, while tablet usage remained minimal at 82 sessions, reinforcing a mobile-first user base.
- By region, Norway led with 2,953 sessions, followed by Germany (1,074 sessions), while the Netherlands, Denmark, Sweden, Poland, the United States, and the United Kingdom continued to contribute steady international traffic.

Organic Search Performance

- Organic search generated 3,486 sessions, along with 2,222 total users and 2,090 new users, reflecting exceptional growth in search-driven traffic.
- Engagement from organic traffic remained stable, with an engagement rate of 61%, indicating consistent user quality despite the significant increase in traffic volume.
- The site recorded 67.6K impressions and 3,787 clicks, with an average position of 8 and a CTR of 5.6%. Visibility strengthened considerably, driving higher search traffic and improved rankings across key queries.
- The strongest-performing queries included “preikestolen,” “preikestolen basecamp,” “preikestolen fjellstue,” “preikestolen webcam,” and “teambuilding,” which continued to generate the majority of impressions and clicks while sustaining the site's core organic visibility.
- Organic conversions also improved, generating 19 phone call clicks, 18 email clicks, and 4 form submissions, highlighting stronger high-intent engagement from search traffic.

Google Ads:

- The PreikestolenBaseCamp pMax campaign was the star of May. Revenue grew nearly 6x (NOK 827 → NOK 5,585) at a fraction of the April cost. Conv. value/cost jumped from 6.87 to 24.65. Cost per conversion has almost halved across the account, cost/conv. dropped from NOK 402 to NOK 219 (-46%).
- Conversion rate is climbing. The conv. rate improved from 1.88% to 2.46%, meaning more of the people clicking are actually converting. This points to better audience targeting and landing page relevance.
- Impression share grew despite lower spend. Performance grew from 12.18% to 14.97% impression share while spending less, a sign that Smart Bidding is finding more relevant, less contested auction moments to enter.
- CPC dropped significantly. Average CPC fell from NOK 8.02 to NOK 5.38 (-33%), meaning we're paying less per click without sacrificing click volume proportionally.

Work Done

SEO Work Done:

- Analyzed pages with declining performance/ low word count and created on-page optimization drafts 4 pages.
- Worked on backlink submissions, including 3 directories, 3 social bookmarking/image sites, and 3 classified platforms.

Google Ads Work Done:

- Seasonal Monitoring & Budget Control: Actively monitored campaign performance and adjusted daily budgets across Brand, B2B, and Performance Max campaigns to balance visibility with lower seasonal demand.
- Keyword & Search Term Hygiene: Reviewed and added new search terms, while also removing redundant and overlapping keywords to reduce inefficiencies, tighten relevance, and maintain cleaner brand traffic during low-intent periods.
- Campaign Structure Refinement: Made ongoing adjustments to campaign and ad group settings to align with seasonal behaviour, ensuring Brand and B2B campaigns continued capturing high-intent searches.
- Bid & Efficiency Adjustments: Implemented bid adjustments across priority campaigns to control costs and maintain competitiveness during fluctuating auction pressure over the holidays.
- Extension & Asset Updates: Reviewed and maintained ad extensions (location, callouts, structured snippets, and phone assets) to ensure accurate, relevant messaging throughout the season.
- Video Assets incorporated to help reach a wider audience and improve ad strength.
- Scaled down the campaigns as per business requirements.

Tracking Work Done:

- B2B form tracking: Implemented the new Booking_form event. Confirmed it is firing correctly, recorded in GA4, and marked as a key event.
- Google Ads conversion setup: the same Google Ads conversion goal is in use. Conversion action is active and configured with a value of NOK 10,000.
- Duplicate conversion: Paused click_mailtobooking to avoid duplicate and/or incorrect conversion reporting.
- GA4 user activity tracking validated: traffic attribution, pageviews, and session activity are visible and tracking as expected in GA4.

Next Steps

SEO Work Planned:

- Monitor performance and optimize 3 to 4 pages by aligning content with the B2B audience.
- Work on backlink research and submissions (3 directories, 3 classifieds, and 3 social media bookmarking/ image submission websites)

Google Ads Work Planned:

- Implementation of the new winter ad group strategy for the existing campaigns.
- Performance Optimization: Monitor demand patterns closely and adjust bids, budgets, and targeting to capture returning intent efficiently.
- Ongoing Monitoring & Stability: Continue active performance monitoring to maintain cost control, prevent ad fatigue, and ensure the account is positioned for scalable growth in the coming months.

Tracking Work Planned:

- Continue monitoring GA4 events and real-time/debug trends, Google Ads conversion stability, and attribution
- Set up and validate the full B2C funnel, including view_item, add_to_cart, begin_checkout, and add_payment_info, for funnel analysis to understand customer journey and drop off rate.

Year on Year Highlights

Organic (SEO) [Mar-May 2025 vs Mar-May 2026]

Impressions

171,286

↑ 9.3%

Average Position

8.17

↓ -40.7%

Clicks

8,576

↓ -9.0%

Site CTR

5.01%

↓ -16.8%

- Search impressions increased by 9.3% YoY, growing from 157K to 171K, demonstrating stronger organic visibility across Google Search.
- Average organic ranking improved from Position 13.8 to Position 8.2, representing a 40.7% improvement in search visibility and bringing more target keywords onto the first page of Google.
- However there is a decrease in clicks and avg CTR.

Google (Paid) [May 2025 vs May 2026]

- In May 2025, the [SEARCH] Brandname campaign was the primary source of leads. However, these leads mainly came from users who already knew the brand and were actively searching for it. This means many of them were likely to convert organically, even without paid ads on brand keywords.
- To improve budget efficiency, we shifted the focus from Brand keywords to Non-Brand / Generic keywords, targeting users who were not already familiar with the brand or business. As a result, in May 2025, [SEARCH] Brandname generated 15 leads.
- In May 2026, we generated 23 total leads, but only 9 came from the Brand campaign. This shows that we were able to drive more leads overall while reducing dependency on branded search, helping save budget and attract new potential customers.
